Polluted rivers of Andhra Pradesh

2326. SHRI NANDI YELLAIAH: Will the Minister of ENVIRONMENT AND FORESTS be pleased to state:

(a) whether it is a fact that as per the survey conducted by the Central Pollution Control Board, Godavari-from Polavaram to Rajahmundry, Nagavalli from Nagavalli to Thotapalli and Musi between Hyderabad and Secundrabad stretch are among very polluted rivers in Andhra Pradesh;

(b) if so, the source of pollution of these rivers and the main factors responsible for pollution in these rivers; and

(c) the details of efforts made, so far/proposed to be made by Government to make these rivers clean and check the pollution in these rivers?

THE MINISTER OF STATE IN THE MINISTRY OF ENVIRONMENT AND FORESTS (SHRI NAMO NARAIN MEENA): (a) As per the survey conducted by the Central Pollution Control Board (CPCB) alongwith Andhra Pradesh Pollution Control Board (APPCB), river Godavari is polluted in the stretch from Polavaram to Rajahmundry, river Nagavalli along Thotapalli Regulator and river Musi downstream of Hyderabad, and are having Bio-chemical Oxygen Demand (BOD) values ranging between 6 to 44mg/1.

(b) These rivers are polluted by the discharge of municipal and industrial wastewater. Inadequate flow of fresh water is also responsible for deterioration of water quality of rivers.

(c) For industrial pollution, the APPCB has specifically identified fifteen industrial units discharging wastewater into the rivers of Godavari and Musi, and is enforcing the Water (Prevention and Control of Pollution) Act, 1974 with regard to standards of discharge.

In regard to treatment of municipal wastewater, the Ministry of Environment and Forests has taken up the works related to interception, diversion and treatment of municipal wastewater under the National River Conservation Plan in the towns of Bhadrachalam, Mancherial, Rajahmundry, Ramagundam located along river Godavari, and Hyderabad along river Musi in Andhra Pradesh. Under this programme, two sewage treatment plants have already been set up with a total capacity of 6.46 million litres per day.

Allowing field trials of GM food crops

2327. SHRI EKANATH K. THAKUR: Will the Minister of ENVIRONMENT AND FORESTS be pleased to state:

(a) whether it is a fact that the decision to allow field trials in GM food crops may have human and economic cost;
